FAKE EXAMPLE RESUME for testing Job Pilot. Replace me/resume.pdf with your own.

EXPERIENCE

Software Engineer II, Acme Payments (fictional card network) **2023 - present**

- Built a partner onboarding and disputes portal used by 40+ merchant partners (React, Spring Boot, Node.js, Elasticsearch, Couchbase)
- Built an internal transaction lookup tool for support and risk teams (React, Redux, Node.js)
- Moved a legacy monolith onto Docker and Jenkins pipelines, cutting release time by about 40%

Solution Engineer, Globex Telecom (fictional) **2021 - 2023**

- Wrote Java services that pull router configurations and check them against reference rules
- Built a React and Redux UI for creating and editing network services
